Central Water Quality Laboratory

# WHO WE ARE

Clean, safe water is an important part of any community. It is essential for the health of residents and the success of businesses. The City of Dayton Central Water Quality Laboratory tests and monitors the quality of over 23 billion gallons of water supplied to customers throughout the Miami Valley every year. Our team of specialists uses state-of-the-art equipment and decades of experience to keep consumers safe and the water system running as it should.

# WHY WE'RE A BETTER CHOICE

- Quick turnaround time for most test results
- Competitive pricing
- Reportable samples submitted to OEPA
- Advanced equipment and expert technicians that ensure water quality for Dayton and most of the surrounding area.
